Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 July 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed July 20, 2009 with respect to the rejection of claims 1, 4, 5, 8, 21 and 23-25 under 35 U.S.C. 112 have been fully considered but they are not persuasive. The drawings cannot be relied upon solely for support of relative dimensions if the drawings have not been disclosed as being drawn to scale by applicant.
2. As to arguments regarding the rejection of claims 35-40 under 35 U.S.C. 112, if applicant intends to use drawings to support traversals of claim rejections, applicant is advised to only provide reproductions of submitted drawings as the drawings were actually filed. The dotted lines indicating a third portion in the reproduction in the remarks were not present in the originally filed drawings **and applicant is strongly urged not to repeat this method of supporting arguments traversing drawing objections or rejections in which the drawings are relied upon.** The rejection of claims 35-40 is thus maintained herein.
3. Applicant's arguments, see Remarks, filed July 20, 2009, with respect to the rejections of claims 1, 4, 5, 8, 21 and 32-40 under 35 U.S.C. 103 have been fully considered and are persuasive. The rejections of claims 1, 4, 5, 8, 21 and 32-40 under 35 U.S.C. 103 have been withdrawn.

Specification

4. The amendment filed July 20, 2009 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: an area of the non-engaging portion 7a that is

larger than that of the engaging portion 7b. Contrary to applicant's remarks directed to the amendment, drawings cannot be relied upon as the only means for establishing support for relative size if the drawings were not disclosed as being drawn to scale.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 1, 4, 5, 8, 21 and 23-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the disclosure as originally filed for an area of the non-engaging portion that faces and is directly engagable with the hook member of the fixing tape being folded along the outermost lateral edge of the respective side flap is larger than that of the engaging portion. Applicant's specification makes no mention of relative size of these two features and the drawings do support the limitation that an area of non-engaging portion 7a is larger than that of engaging portion 7b.

7. Claims 35-40 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the

claimed invention. As to claim 35, there is no support in the disclosure as originally filed for a third portion that is separate from first second and attaching portions. Claims 36-40 directly or ultimately depend from claim 35 and are thus also rejected as reciting new matter.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
